Learning Objectives Annex SL (Module 1)

Annex SL defines the framework for a generic management system. Its purpose is to ensure that in future all ISO management system standards will have the same look and feel. This is achieved through the use of identical core text and language, as well as the adoption of common terms and definitions. On completion, successful students will have the following knowledge and skills.

- Explain the purpose of Annex SL Appendix 2 and its use by standards writers
 - Briefly describe the framework for a generic management system standard making reference to the high-level structure and drawing comparison with previous management system standards where appropriate.
 - Explain new and revised terms and definitions with reference to Annex SL
-

ISO 22000:2018 Transition (Module 2)

On completion, successful students will have the following knowledge and skills. To communicate any changes in QMS specific requirements arising as a result of transitioning from ISO 22000:2005 to ISO 22000:2018

Course Format

- Course Program
