Why CQI and IRCA?

CQI and IRCA is the leading professional body for management system auditors and offers a globally recognized business qualification. **CQI and IRCA** represents over 10,000 registered auditors in 150 countries and every year, around 60,000 delegates attend **CQI and IRCA** certified training course.

CQI and IRCA Certified courses are recognized as an industry leader and **CQI and IRCA** endorsement means that you can be confident that the course you are attending:

- Covers the key knowledge and skills you need to start your journey as a management systems auditor
- Will be taught by tutors who are experienced auditors and trainers who have fulfilled CQI and IRCA tutor competency requirements
- Will be taught using a variety of proven practical student- focused learning techniques to help you learn and enjoy the course
- Has a limited class size to maximize participation and optimize your learning
- Has been regularly assessed by CQI and IRCA approved technical assessor.
- Completion of this course is the first step to becoming **CQI and IRCA** registered, to find out more please visit www.irca.org/join

CQI and IRCA recognize that attending a training course is usually a major commitment, both in terms of cost and time. When choosing the right training organizations and the right course, make sure you look for those that display the **CQI and IRCA certification mark**.

CQI and IRCA only approves organizations that have demonstrated a high standard of technical and training expertise. All training organizations approved by CQI and IRCA must demonstrate that they have the competence to achieve the learning outcomes for each course and to examine the performance of students.

When you are choosing CQI & IRCA certified Course and Training Organization you can be certain that

- Your knowledge and skills are developed through an interactive and practical approach to tasks and audit activities.
- Courses are delivered by tutors who are experts in management systems in auditing and experienced in training.
- Students are formally assessed and examined during training.

Who will benefit?

- Quality-Managers (QA/QC Personnel), Engineers, Professionals in Environmental Fields (Chemical, Leather, Paint, etc.), Technical Experts.
- Document Controllers, Internal Auditors, Implementation Managers.
- NBA / NAAC Coordinators & Consultants, Management System/ ISO / TQM Consultants.
- Students and Job seekers in Quality field /Abroad Placements/Career Development.

Learning Objectives

Learning objectives describe in outline what students will know and be able to do by the end of the course. On completion, successful students will have the knowledge and skills to:

Knowledge

- Explain the purpose of an environmental management system, of environmental management systems standards, of a management system audit and third-party certification, and the business and societal benefits of improving environmental performance.
- Explain the role and responsibilities of an auditor to plan, conduct, report and follow-up an environmental management system audit in accordance with ISO 19011 and ISO/IEC 17021, as applicable.

Course Format

- Course Program
- Each day is divided into four sessions, two before lunch and two after lunch.
- The first session precedes the mid-morning break and the second follows mid morning break.
- The afternoon sessions are similarly divided.
- The output of the exercise are a part of the formal continuous assessment and will therefore be marked.
- Although the exercises are group exercises individual score to the delegate will be based on their overall participation.
- A mock audit – Role play will be conducted on Days 4 & 5 of the Training for the delegates to demonstrate the skills learned and understood during the course. All sessions are interactive and delegate participation is encouraged.
- You will need to allow sufficient time to read and understand the notes which have been provided

Course Style

- All sessions are delegate interactive and delegate participation is encouraged. Delivery will include presentations by lecture, overhead and slide projection.
- There are numerous exercises and each activity is assessed as part of the overall candidature evaluation.
- A model factory will be used and wherever possible practical illustrations will be given. All course presenters will have experience of QMS design and implementation, and have some experience of QMS certification and assessment.
- A live audit in a host organization (or an audit role play) will take place on day 4 so as the delegates may demonstrate the skills learned and developed during the course.
